

Partner of Your Success

N'ware Technologies, is a private company that specializes in Enterprise Resource Planning (ERP) software, Warehouse Management Systems (WMS), Business Intelligence (BI), and integrated E-Commerce solutions for SMBs.

In business since 1995, N'ware Technologies has grown from a family business into a leading provider of business management software, with a global presence in the **USA, Canada, Latin America, Europe, and India**. As an **SAP Gold Partner**, N'ware is exclusively focused on delivering value to manufacturing and distribution companies through innovative IT solutions and exceptional service.

Our Purpose

Our **integrity** and **commitment** to our clientele are values that guide everything we undertake. We firmly believe that our clients are fully entitled to **quality, value, accountability, and respect** from our **team** members. Our mission is to be a premier IT company that enables our employees, our customers, and our partners to achieve their goals by bringing together talent, experience, and innovation.

Our Solutions

SAP Business One

Powerful, scalable, and affordable, SAP Business One is a business management software designed for small to mid-sized businesses and subsidiaries. It provides the functionality to streamline all your key processes and drive profitable growth.

LISA WMS

Certified for SAP Business One and available for SAP Business ByDesign, LISA WMS is the leading Warehouse Management System to streamline the entire supply chain, increase inventory visibility, and boost warehouse operations efficiency.

PDC-One

Designed with simplicity in mind, PDC-One allows office and production floor workers to record and track manufacturing data (job status, labor, materials & finished products) against SAP Business One Production Orders, in real time.

Business Intelligence

We help our clients leverage the latest technology, tools, and methods to analyze their business data to gain actionable insights about their organization, and enable faster, more confident decision-making.

Our Expertise

N'ware's talented team of professionals brings extensive industry knowledge and deep product expertise to deliver products and services that meet the highest standards. Our experts are proficient project managers who take pride in delivering projects on time and on budget.

We take pride in continuous improvement of the products and services that we deliver and uphold, which ensures customer satisfaction, profitability, and sustainable growth. Accordingly, we continue to innovate and assess our technologies and solutions to deliver the best possible outcomes, either by developing proprietary solutions and applications, or partnering with industry-leading suppliers.

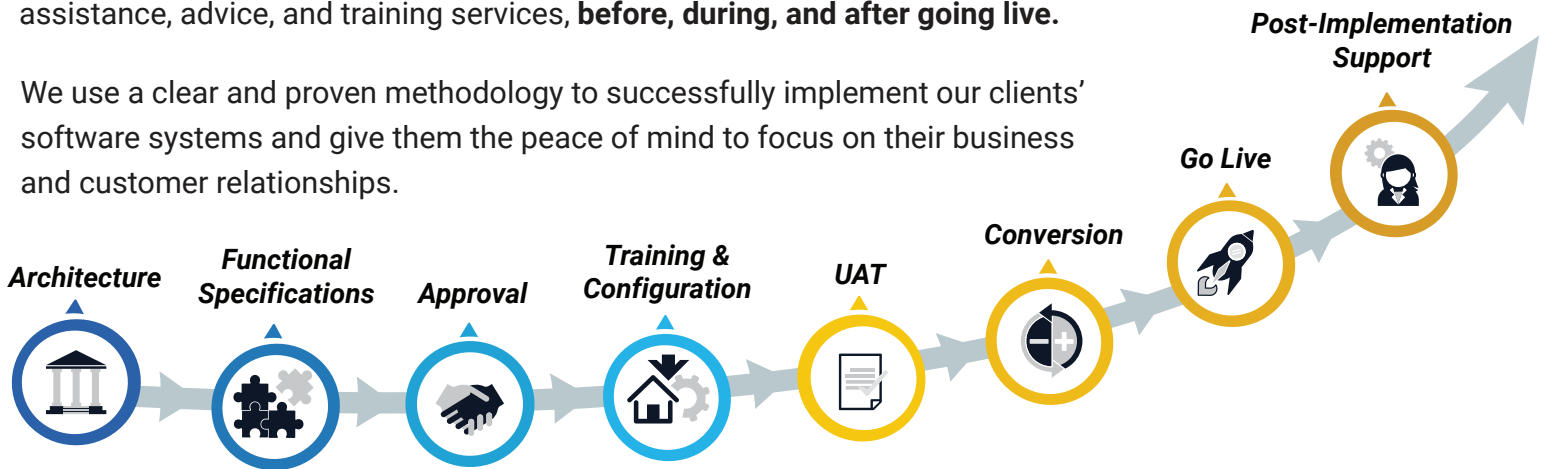

“A company like N'ware is a really valuable partner to us, [...] and one of the things that I really like about N'ware is the responsiveness, but also the proactiveness. So it has been a really good and productive partnership, and I feel like as we continue to grow, N'ware will help us use all of SAP Business One's functionality.

Tina Reynolds, IT Manager, LEWA Nikkiso America

Our Approach

Investing time and money in a new business management software is an important decision for your company, and you must be able to rely on a team of qualified and certified specialists to accompany you throughout the process. To optimize your solutions, our trustworthy consultants provide assistance, advice, and training services, **before, during, and after going live.**

We use a clear and proven methodology to successfully implement our clients' software systems and give them the peace of mind to focus on their business and customer relationships.

Why N'ware?

Being a premier IT company does not mean being the biggest, but it does mean being the best in terms of delivering value, customer service, employee talent, and consistent, predictable growth. Therefore, we believe that success can only be achieved by building strong and durable relationships with our clients and partners. This is why people are at the forefront of every project we undertake. We treat our customers as we expect to be treated, and we are understanding of individual backgrounds, experiences, strengths, contexts, and realities. This thorough, human approach not only ensures the successful delivery of your business software project into your day-to-day operations, but it also guarantees that business benefits will be quickly revealed, resulting in increased profitability and a rapid return on your technology investment.
